

Question and Answers between Dr. Ace Jovanovski of Jovan Prosthodontics and Jill Skinner of the *View*.

WHY DID YOU CHOOSE PROSTHODONTICS AS YOUR SPECIALTY?

The best part of being a dental specialist is the relationship that you build with your patients. Getting to know each patient, and what they want to accomplish, is the most important part of any dental treatment. Executing the treatment, with proper training and expertise, is the second half of the equation.

As a prosthodontist, we are able to better streamline the treatment for many procedures. For example, dental implants can often be placed at the same time of a tooth extraction, eliminating the need for multiple surgeries and reducing the total time needed for the final restoration. In fact, most implants can be restored in as little as 6-8 weeks after placement.

WHAT SETS YOUR PRACTICE APART FROM OTHERS?

We are the only office in Round Rock that has a certified dental lab technician on site. With an in-house lab, we are committed to providing the highest quality of

care available, offering quicker turn-around times and same day repairs for emergencies.

Jovan Prosthodontics also use state-of-the-art technology, ensuring your teeth not only look great, but also feel great. We are one of the rare offices that use Platelet Rich Plasma (PRP) therapy to jumpstart healing. PRP uses your own body's natural growth and healing factors to initiate repair, recruiting stem cells.

We are the only prosthodontic office in Round Rock to have an onsite Cone Beam imaging center. Having a 3-D image of the patient allows for better planning and diagnosis, compared to the conventional 2-D x-rays.

We are a one-stop shop for all your restorative and cosmetic dentistry needs.

WHAT CAN PATIENTS EXPECT FROM THEIR FIRST VISIT TO THE OFFICE?

The first visit starts with a conversation. Our professional team will make you feel welcome from the moment you arrive. I love loves photography, so usually my camera will come out. Pictures can help

you see things that are often too complicated to explain with words.

We are so devoted to harnessing technology to your advantage; we even offer a *Trial Smile* service so you can see a "mock-up," or "preview," of your crowns/veneers before you move forward with treatment.

Ready to experience expert skill in a relaxing, patient-centered atmosphere? Call **512-716-1200** or fill out our online form today at **JovanPros.com** to book your first appointment. We look forward to hearing from you!
