

## Rocky Hollow Lake House started...

Well before it was a business, our family became aware of Assisted Living & Memory care as we needed help for my mom. She was suffering from Dementia, and that brought us to learn the importance of professional care and how WE can do better.

I was determined to provide a home for many mothers, fathers, grandmothers, and grandfathers in a similar situation. After seeing the difference a good community can have on our elderly, we acquired our first community in Bellville, TX. We

have proudly, as a family, owned and operated our Bellville location for 10 years.

Along the way, we have grown and learned from all our residents, their families, and our staff. Today, we are blessed to have the responsibility to care for so many peoples' loved ones. I am proud to say our family has grown much bigger since our first community.

Rocky Hollow Lake House Assisted Living & Memory Care is our family's fourth facility, sitting on 10 beautiful acres of land in Texas hill country with over 1 acre of walking paths. We

are thrilled to have the opportunity to serve the Georgetown community!

Over the years, we have been able to engrain dignity, respect, and love in our culture, our staff, and our partnerships. We strive to be the difference by putting our heart into all that we can do for our residents. At Rocky Hollow Lake House, you will find we care for your family like our own.

The Khan Family and its' Staff invite everyone to come to Rocky Hollow Lake House to tour, have a cup of coffee, and visit with our amazing residents. If you or a loved one is in need of our services, please contact us today!

In loving memory of Marilyn
