

Escape with Vibrant Energy

It is always mind-invigorating to meet a couple like Claudia and Dan, the Alucik founders. Claudia is a versatile artist equally comfortable with massive fiber art installations in corporate foyers and with tiny pieces of silver and gold gracing a neckline or earlobes...and anything inbetween. Her paintings, as much as her art installations, draw the viewer into a world of energy, color and dynamism.

Now, at The Escape, our customers can get a sense of this with Claudia and Dan's **limited edition jewelry line**. In 2007, while living in Switzerland, the couple started experimenting with the conversion of hand-drawn digital designs into highly detailed stainless steel patterns and colorful textile prints. This artistic exploration developed into a line of jewelry and other items. As they journeyed the world, living on four continents, the collection evolved. The wealth of cultural influences and immersion in nature's diversity reflect beautifully in the inspired designs.

Following a strong creative drive and motivated by the passionate response from fans around the world, the decision was made to bring the project home to California. In 2014 Alucik launched this line of high-quality jewelry designed, produced, assembled, and packaged in the USA. The Alucik art is made of lightweight and durable stainless steel plated with either 0.999 silver (with an anti-tarnish coating) or 24kt gold.

Look carefully and you would recognize elements from nature as well as from Claudia's large and elaborate works reduced to wearable art pieces. Stand for a while and before you know, your mind escapes into a different dimension.

Visit The Escape and experience the Alucik energy!
